(57) ABSTRACT

A multi-composition stick product, such as a lip balm, sun  
screen, deodorant, or glue stick. The multi-composition stick  
product including a stick composition molded in the  
container so as to contact the walls thereof and be advanceable  
or ejected therefrom. The stick composition includes a first  
composition and a second composition. The first and second  
compositions differ in at least one component, such as a  
medicament, colorant, fragrance, flavorant, sunscreen, pre-  
servative, conditioner, moisturizer, emollient, or surfactant.  
Furthermore the first and second compositions are arranged  
in a predetermined non-random pattern that is reproducible.  
Also described is the method and apparatus for manufac-  
turing the multi-composition stick product.
